Subject: request for project updates

Hi Sam,

How are you getting along these days? I hope you are doing well! Can you provide the status of the Somerville South Amendment 3 project, LRL-2013-423-SEW, and the Vigo Sunna project, LRL-2011-1055-SEW. If you issued permits, can you send me an electronic copy with the special conditions attached? Just giving you a heads up, I am beginning to close some loops right now. Looks like I am getting my reassignment to EPA Region 10's office in Portland sometime this spring...could be as early as a month from now.

Thank you,

Melissa
